## Nazis Arked As British Give Orders For Their Immediate Expulsion

LONDON, May 2.—Great Britain advanced efforts to check the spread of Nazi doctrine within her own borders today by ordering expulsion of an undetermined number of "undesirable" German residents.

At the same time she proceeded with her measure for conscription by tackling delicate questions raised with respect to Ireland by that step, and pursued her negotiation of European alliances.

The foreign office sent to Berlin today a "simple acknowledgment" of the German note renouncing the 1935 naval agreement between the two countries. The note was received last Friday simultaneously with Chancellor Hitler's Reichstag speech.

A foreign office spokesman said the government "will probably send in observations in due course advising the German government that it has no intention in the near future of negotiating a new Anglo-German agreement which Hitler suggested in his speech."

The home office disclosed it had sent to the German embassy a new list of Nazis living in Britain who have been ordered to leave.

## CHANGES WILL BE MADE IN WHEAT BILLS

### Nature Of Changes Not Indicated Immediately By Government

OTTAWA, May 2.—Changes in government legislation relating to wheat will be made, the House of Commons was told today by the nature of the changes was not indicated immediately.

After some protest Hon. W. D. Bower, trade minister, and Hon. J. G. Gardiner, agriculture minister, obtained the consent of the House to the reprinting of the acreage bonus act and the bill amending the Wheat Board Act which stand for second reading. Both ministers said the changes were matters of detail and involved no change in principle and that the reprinting would facilitate consideration by members.

### CHANGES IMPORTANT

Hon. H. H. Stevens (Con. Kootenay East), said the changes probably were important as they would make the legislation conform more closely to demands made on the government by the wheat growers. He said the changes were matters of detail and involved no change in principle and that the reprinting would facilitate consideration by members.

Hon. C. M. Cahoon (Con. St. Lawrence), said the changes were important as they would make the legislation conform more closely to demands made on the government by the wheat growers.

They had adoring eyes for each other when this picture was taken, but now Dorothy Lamour, aragonamous actress, and her orchestra leader-husband, Herbie Kay, are through. Their reason: marriage and careers don't mix.

## Dorothy Lamour Free: Wally Beery Wifeless

CHICAGO, May 2.—Band leader Herbie Kay was granted an uncontested divorce Monday from Dorothy Lamour, radio and screen star.

CARSON CITY, Nev., May 2.—A brief, uncontested divorce trial Monday ended 14½ years of marriage for Mary Arizona Gilman Beery and Wally Beery.

Beery won the decree on grounds of cruelty within 20 minutes after the suit was filed.

## Mystery Veils Death Of Olds Resident As Body Found In Ditch

OLDS, Alta., May 2.—Mystery surrounds the death of George Graham, 61, of Olds, who was found dead in the railway ditch about three miles south of Olds Monday afternoon. His body was discovered by Olds sectionmen lying face down in a water hole beside the farm of Ernest Farrell.

Although Graham is believed to have been a suicide, suspicion of foul play crept into the case due to the fact that his body was found with the feet tied together with barbed wire, while his hands were bound together behind his head, as with barbed wire.

He had been in the water for several days.

Countdown Duntlop of the R.C.M.P. is investigating. Mr. Graham resided in Saskatchewan for several years before moving to the Olds district 20 years ago. He had resided in Olds for several years and was a plasterer and carpenter by trade. He took a great interest in natural life and mounted many wild animals and birds.

Mr. Graham, who had been in poor health for some time, returned from the Ponoka mental hospital only a few days prior to his death. He is survived by a wife and several children. Funeral arrangements are pending.

It was not known Tuesday morning if an inquest would be held.

## Lethbridge Has Paralysis Case

LETHBRIDGE, May 2.—Fourth case of infantile paralysis is reported here, three-year-old Ruth Goldbridge being stricken with the malady. Two other cases are recovering and one was sent to Edmonton last week for special treatment.

## Japan Village Swallowed In Terrific Seas

TOKYO, May 2.—The first survey of earthquake-stricken areas today showed 19 known dead, hundreds missing and injured, 70 houses of the village of Aikawa reported swallowed by the sea, and more than 1,000 homes destroyed or damaged.

The horror of the quake, which centred about 300 miles north of Tokyo yesterday, was heightened by fire and flood.

The shocks, said by seismologists to have been the strongest in the north of Japan in 25 years, broke water mains and left flames powerless to combat fires which broke out in numerous towns and villages.

The banks of a concrete culverted about Fushiki Port city, spilling millions of gallons of water, seven homes were reported destroyed.

More than 300 inhabitants at three-minute intervals were ordered to evacuate—0.000 from the city of Aikawa alone—into flight.

At least one hundred cases in within less than a mile of Oga Peninsula was believed to have caused the shocks.

Fragmentary reports said spectacular changes were wrought in the contours of the Akita Prefecture coastline, particularly around the peninsula.

Whole sections of hills rimming the sea were said to have disappeared into the ocean, after which great waves rolled in on the new shoreline.

A village of 600 houses disappeared in such fashion, police of Akita Prefecture reported.

## 3 Mills, 12 Settlers In Forest Fire Areas Burned Out Entirely

Forest fires which threatened the village of Winfield last week-end are under control, but new blazes to the west and northeast have burned out at least a dozen settlers and wiped out three sawmills.

Every available man from Winfield and district is out fire-fighting, most of them at Buck Mountain, 18 miles northwest, but they have been on the job for three days, are nearing exhaustion, and there are no more men to relieve.

SPRING WORK NOW KEEPING FARMERS BUSY

Seeding is in progress in practically all sections of the province, according to officials of the Alberta Agriculture Department. As much as 40 per cent of the wheat is sown in some areas, officials state. In other sections 10 per cent is reported.

Conditions generally are favorable to seeding. The dry spell, while unfavorable for timber and resulting in many fires, is greatly assisting the farmers in putting in their crops.

It is expected that during this week, seeding in all parts of the province will gear up to or reach its peak. Acreage to be sown to wheat is expected to be approximately the same or a little greater than last year.

Departmental officials stated that the first crop report of the season would be issued about May 14.

## Submarine Phantom Is Still Haunting Halifax

HALIFAX, May 2.—Naval authorities refused to comment last night on unconfirmed reports from Yarmouth, N.S., that a "submarine ship" of submarines was stalled off Cape Sable Island, the southwestern tip of Nova Scotia. They also had nothing to say about reports that submarines had been sighted along the coast within the last week.

Two Yarmouth Island fishermen said last week they had seen an object that looked like a submarine off the coast of Yarmouth. They said they were convinced it was a submarine.

Reports of the appearance of a submarine were first heard about two weeks ago when Lockport fishermen said they had seen one 15 miles offshore.

Further reports of the appearance of a submarine came last night from the south shore port of New Brunswick. Two fishermen, William Golden and Harley Derick, said they had seen a submarine off the harbor last Saturday. They said it was about 200 feet long with a light at each end. Both fishermen said they were convinced it was a submarine.

## WARSHIPS WILL ESCORT ROYAL OCEAN LINER

Home Fleet to Accompany Empress of Australia to Land's End

By PAT USHER

Canadian Press Staff Writer LONDON, May 2.—Warships of the home fleet will accompany the liner Empress of Australia through the English Channel as the King and Queen sail for Canada next Saturday.

The home fleet at present is at Portland under command of Admiral Sir Charles Forbes. A number of units will join the liner off Spithead and escort her part of the way to Land's End when all but the cruisers Southampton and Glasgow will turn back.

The Southampton and the Glasgow originally were chosen to escort the H.M.S. Regent before it was decided to leave the battle cruiser at home and use the Canadian Pacific liner for the royal voyage.

## GUARD OF HONOR

Canada will have a special star in the send-off for their Majesties at Waterloo station. The London Association of Canadian Ex-Servicemen—a recently-formed organization—plans to have a guard of honor of between 60 and 70 men on the platform alongside the royal train. About the Empress of Australia, now at Southampton, preparation of the royal party is proceeding rapidly. Their Majesties' private rooms are furnished almost completely in white. New carpets and other fittings are being hurried aboard.

## SAIL AS R.M.S.

The liner will sail as the R.M.S. Empress of Australia instead of "H.M.S." as was learned reliably. This decision, making the vessel a mail ship, the merchant marine rather than the royal navy, settles a delicate issue between the navy and the merchant marine over the ship's classification for the special voyage.

## Publication Of List Of British Officers Suspended

LONDON, May 2.—General publication of the monthly army list containing the names of all officers was suspended today as a "precautionary measure."

War office officials said the list was a "useful reference book" and "foreign agents who have been known to purchase it for a few shillings (\$1.70 a month) for it will no longer get their facts as easily."

Applications by British army officers for permission to retire will not be approved by the war office until the international situation has cleared. It was disclosed in a war office statement.

## NOW POSSIBLE TO ROLL UP CITY'S WALKS

NEW YORK, May 2.—Remember that old joke about the town that was so sleepy they rolled up the sidewalks at nine o'clock each night? Well, it wasn't literally true with you first heard it, but it could be today. Science has developed a new type of material, which can be used for sidewalks and can be rolled up at will, like a rug. It is a paper-thin kind of plastic called Ludite.

## BRITAIN AIMING TO CURB SALE OF MERCHANT SHIPS

By J. F. SANDERSON

Canadian Press Staff Writer LONDON, May 2.—The British government shortly will introduce legislation designed to stop the sale of merchant ships to foreign countries, particularly Germany. Oliver Stanley, President of the Board of Trade, announced in the House of Commons that the government would require owners to offer their saleable assets first to the government to be added to the reserve merchant marine.

Mr. Stanley gave a broad hint that subsidies for shipbuilding would be refused to companies who sell to Germany at this time when Great Britain is trying to build up her merchant fleet.

## FIVE PER CENT PROFIT LIMIT GETS APPROVAL

## DEBT ASSET OF PEOPLE, BANK GOVERNOR SAYS

Graham Towers Appears Before House Banking Committee

OTTAWA, May 2.—Debt is an asset of the people, Graham Towers, Governor of the Bank of Canada, said today when he appeared before the House Banking Committee.

As debt is an asset of the people, what would be the object of repaying it, asked Mr. Towers. "There is often an object in an individual entity getting out of debt," he said. "But in the case of the total of public and private debt in a country, it is becoming widespread."

## STRENGTHENING ITS CABINET AS A MEASURE OF PREPARATION

Some British cabinet members were not taken into account in the public debt of the nation's hands in the hands of the nation's private hands and the assets in the public debt were not widespread.

Mr. Landry said he had no personal holdings and the assets in private hands that he represented in the public debt were not widespread.

## POTENTIAL ASSETS

In a prepared statement to the committee, Mr. Towers said he agreed with the thought expressed by Mr. Dandurand that the assets in the public debt were not widespread.

There is no feasible way of preventing a loss to the country as a whole when a temporary fall in export trade, said Mr. Towers. If a decline in exports, there would be a loss to the country as a whole.

## OTTAWA, May 2.—Governor Graham Towers today defined the Bank of Canada's policy as "an asset of the people."

He said that the bank's policy was to maintain a balance between the assets and liabilities of the bank. He said that the bank's policy was to maintain a balance between the assets and liabilities of the bank.

ONLY 23 M.P.'S INTERESTED IN BUDGET DEBATE

Night Session Poorly Attended As Social Creditors Have Floor

By THOMAS WATLING

Exclusive to Edmonton Bulletin OTTAWA, May 2.—Parliament last night was poorly attended as the social business before the arrival of the King and Queen took two hours.

So eager were the M.P.'s last night to carry on speedily, that only 23 of them, including three cabinet ministers, were in the Commons listening to the budget debate.

Strengthening its cabinet as a measure of preparation, the government today announced that it would be introducing a bill to strengthen the cabinet.

## ONLY 23 M.P.'S INTERESTED IN BUDGET DEBATE

Night Session Poorly Attended As Social Creditors Have Floor

By THOMAS WATLING

Exclusive to Edmonton Bulletin OTTAWA, May 2.—Parliament last night was poorly attended as the social business before the arrival of the King and Queen took two hours.

So eager were the M.P.'s last night to carry on speedily, that only 23 of them, including three cabinet ministers, were in the Commons listening to the budget debate.

Strengthening its cabinet as a measure of preparation, the government today announced that it would be introducing a bill to strengthen the cabinet.

## GOVERNMENT IS WARNED BY WESTERN M.P.

### Charges Budget Deliberate Betrayal Of Western Electorate

OTTAWA, May 2.—The government had a blunt warning before it today that if the 1939 budget was as drastic as the present problems facing the country, there was little hope for the Liberal party in Western Canada.

The warning came from Dr. H. R. Fleming, Liberal member for the Saskatchewan riding of Humboldt, who asserted he would vote against the government and support the C.C.F. amendment to the budget motion.

#### REVOLT IN OTTAWA

Dr. Fleming's outburst last night in which he declared the budget "a deliberate betrayal of the western electorate," brought into the open a revolt among western Liberals which had been reported elsewhere since the government's new wheat legislation was brought into the house.

Two opposition speakers, T. C. Douglas (C.C.F. Western) and Robert Fair (S.C. Battle River) preceded the "bolt" of the Saskatchewan Liberal with charges that the present administration was abandoning Western Canada—by actually withdrawing its support of the wheat industry—for the sake of prospective votes in the East.

#### CONTINUE FIGHT

Dr. Fleming told the house flatly he would continue his fight for an 80-cent minimum, with the prospect of bonus as well. The agrarian west would not much longer live in economic slavery, he said, as he urged the government to take cognizance of the case presented for an 80-cent minimum by the Western Markets Conference organized by Premier John Bracken of Manitoba.

"The whole economy that has been built up is threatened with extinction by this 60-cent price," he said. "The farmer cannot live on 60-cent wheat. All the figures having to do with the industry prove that it is below the cost of production. The west has been accused by what they regard as a betrayal of their interests."

#### CANNOT BE SATISFIED

"We western members might just as well blunty tell the government right now what we think of it," he said. "I protest that the farmers of the west cannot be satisfied with anything less than 80 cents."

Dr. Fleming regretted that the budget was not more robust. It was a far cry from Finance Minister Dunning's May Day budget which he believed in Liberal principles, before he became, exclaiming, "of the doctrine of the inevitability of gradualism." The budget was "certainly not a poor man's budget."

The west was not demanding bonuses but simply asking for a compensating adjustment for the added burden imposed by the tariff. Tariffs protected the margin of profit; wheat assistance lowered the margin of loss.

#### GARDINER OBJECTS

Hon. J. G. Gardiner, minister of agriculture, objected to references to a "60 cent price" when it was only an "advance" but Dr. Fleming termed this "hair splitting."

"Not only do I see little hope for the west in this budget, I fail to see any minor, let alone any major, attempt to tackle the real economic problems of the day," the member continued. "Many persons believe that the invidious paradox of poverty amidst plenty is because of that and our economic failure is due entirely to our outworn monetary system."

#### NO HELP FOR PRODUCER

"This budget in no way provides help for our suffering population. There is no help for the primary producer. Nothing has been done with respect to farm implements. Nothing has been done to smother the combines we heard so much of a year ago. The sales tax has not been abolished. The sugar tax is still maintained."

"I therefore find that I must support the amendment to the amendment." He made clear, however, he was not subscribing to the C.C.F.'s Socialist doctrine.

#### Harmless Fanatic

HAMILTON, Ont., May 2.—Police said last night they had identified a man seen prowling around a waterfront building and docks Saturday night as a "harmless fanatic" who had nothing to do with a bag of dynamite and percussion cap found on the shore of Hamilton bay in the last two days.

## British Build Gigantic Short Wave Receiving Station For U.S. Business

GREENSBEND, Kent, May 2.—The British post office, which has charge of all mail, wire and radio communication in the United Kingdom, has built a gigantic short wave receiving station on the coast of Kent, near here, to handle traffic arising from the king's visit to Canada and United States.

The Cooling Marshes station, which has directional aerials three miles long, will work with a specially-constructed station in Newfoundland through which messages originating in Canada will be relayed.

When King George rushes across Canada in the government's train he will be able to talk with members of his cabinet in Downing street. A room in the famous dead-end street is being soundproofed so the cabinet may report to the king in a loud voice without fear of being overheard by eavesdroppers.

The Cooling Marshes station also will handle speeches his Majesty makes in Canada as well as the eye-witness descriptions of his journey which the BBC plans to carry.

Queen Elizabeth's voice will be relayed through the Newfoundland Cooling Marshes system to Princess Elizabeth and Margaret Rose in conversation she has promised to have with them every day of the royal tour.

Their peaceful progress up the fog-shrouded harbor was marred when the Odisford rammed and sank a pilot boat.

## Australia Has Plan For Solution Of World's Wheat Problem

SYDNEY, Australia, May 2.—Limitation of export quotas of the principal exporting countries to the level of world demand is Australia's idea of the solution of the wheat problem.

The Commonwealth, however, will not take definite action toward implementing an international agreement until all the states have had time to discuss the problem.

Additional information is being sought from the international Wheat Advisory Committee. This will be outlined at a meeting of the Australian Agricultural Council representing the states and proposals will be drafted for presentation to the international body.

Here are three other suggestions the council will consider: 1. That submarginal land be segregated into drought, reserve food and pasture growing areas. 2. That unwholesome hay be kept as protection against recurring droughts. 3. That low grade and other wheat be maintained as a reserve stock for domestic consumption or export.

## 24 Hours Moscow To N.Y. Service By Air Prediction

NEW YORK, May 2.—Brigadier General Vladimir Kokkinnik, Soviet Russian aviation hero, told New York World's Fair officials last night that "in the not too distant future planes will fly regularly from New York to Moscow in 24 hours."

The flier and his navigator, Major Mikhail Gordinenko, were forced down on May 1, 1938, in New Brunswick Friday on their projected non-stop flight from Moscow to New York.

Nineteen Injured

LONDON, May 2.—Nineteen persons were injured when an electric train crashed into a steam locomotive at the Harrington, London, railway station shortly before midnight. None was seriously injured.

## Approximately 30 to 35 Percent Saskatchewan Wheat Is Now Sown

REGINA, May 2.—Approximately 30 to 35 per cent of Saskatchewan wheat acreage has been sown, according to reports received by the statistics branch of the provincial department of agriculture.

There is a wide variation in the amount completed in different districts. South-eastern, Regina-Weyburn and south-central areas are the furthest advanced with an average of about 50 per cent completed. The east-central area reports approximately 40 per cent finished while only 25 per cent is sown in the south-western portion.

In the northern and eastern portion of central Saskatchewan, the condition of the soil caused delay and little seedling has been done.

In other parts of the country, district fair progress has been made and taking the area as a whole about 30 per cent has been completed.

The land has been too wet in many parts of northern Saskatchewan to permit spring operations and in the north-eastern portion only slightly more than 10 per cent and in north-western Saskatchewan not more than five per cent has been sown.

Fair progress has been made with coarse grains in Regina-Weyburn and south-central areas with 15 to 20 per cent completed. Taking the province as a whole only about six per cent of the coarse grain acreage has been sown.

Except for places in northern and central Saskatchewan where the reversal condition of the land is retarding operation the soil is generally good conditions for spring work. Moisture conditions on the lands are reported fair to good but considerable variation exists. High winds have dried surface soil at

## Fire Restrictions Effective In Idaho

## Appointment Of Roper As Envoy Meets Approval

OTTAWA, May 3.—Hon. Ernest Lapointe, minister of justice, said last night the appointment of Daniel C. Roper as United States minister to Canada, "is a compliment to the Dominion."

"I am delighted with the appointment of such a distinguished man as minister to Canada," he said.

## PANAMA CANAL APPROACH PUT UNDER U.S. EYE

### Decrease Possibility Of "Enemy" Naval Forces Slipping By

WASHINGTON, May 2.—To decrease possibility of "enemy" naval forces slipping through the ring of Caribbean islands which guard the Atlantic approach to the Panama Canal, the United States army Monday ordered the entire area placed under a unified military command.

At President Roosevelt's direction, War Secretary Woodring established an army department of the Caribbean, and named Brig. Gen. Edmund L. Daley to take charge with headquarters at San Juan, Puerto Rico.

The President also asked Congress to make available immediately \$183,448,000 to carry out the new army air corps expansion.

Patrol leaders in the Caribbean very often neutrally legislation referred on a proposal to re-organize for 30 or 60 days the "cash and carry" provision of the present law which expires at midnight last night.

The "cash and carry" clause empowers the President, at his discretion, to require belligerents to pay cash and furnish their own transportation if they desire to buy United States supplies of certain materials which are not classed as instruments of war but which are useful in war-time.

## POLITICS - FREE RELIEF BOARD CALGARY'S AIM

CALGARY, May 2.—The city council, in an overtime session last night, passed the following:

1.—Re-considered its previous decision to add a birth control branch to the city health department.

2.—Abolished relief clothing allowance of \$1 per person per month without fear of being overheard by eavesdroppers.

3.—Revised two and three per cent civic pay cuts as from July 1, at cost of \$10,000 to the end of the calendar year.

4.—Called a relief committee meeting at 4 p.m. today to consider setting up a politics-free relief commission.

5.—Approved police radio installation, two new cars and garage for \$14,000.

## LONGER DAILY SITTINGS FOR LOWER HOUSE

### Government Prepared To Act If All Parties So Wish

OTTAWA, May 2.—Indication was given in the House of Commons Monday by Hon. Ernest Lapointe, minister of justice, that the government is prepared to initiate longer daily sittings with a view to royal prerogative, May 19, if it is the general wish of all parties.

A conference of the party whips will be held to ascertain the will of the various groups on this question. If there is an apparent desire among all parties to end the session before the Royal Visit, the government will make the necessary motion to prolong the daily sittings. The house would probably sit from two o'clock in the afternoon until 11 or midnight with only one hour instead of two for the dinner recess.

Mr. Lapointe gave clear indication yesterday the government has no desire to rush matters. When J. S. Woodsworth, C.C.F. leader, declared his party did not propose to use any measure to be "railroaded," the minister replied, "we are quite prepared to lay here as long as our honorable friends wishes and perhaps longer."

For several days Mr. Lapointe has been leading the house in the absence of Prime Minister Mackenzie King, who has been remaining in comparative seclusion at his home attending to the numerous matters involved in the forthcoming Royal Visit and the ordinary routine of government.

#### COMPLETION POSSIBLE

Mr. Lapointe said he believed it might be possible with co-operation to complete the legislative program, which was "practically all on the order paper," for an early prorogation.

In some quarters it has been suggested the government would either abandon the wheat legislation dealing with a guaranteed price or amend it in a manner to make it more palatable to both western and eastern wheat farmers. If it remains in its present form it is certain to arouse a great deal of debate.

A long debate on the budget is not expected. It was forecast yesterday the vote would probably be reached tonight or Wednesday afternoon.

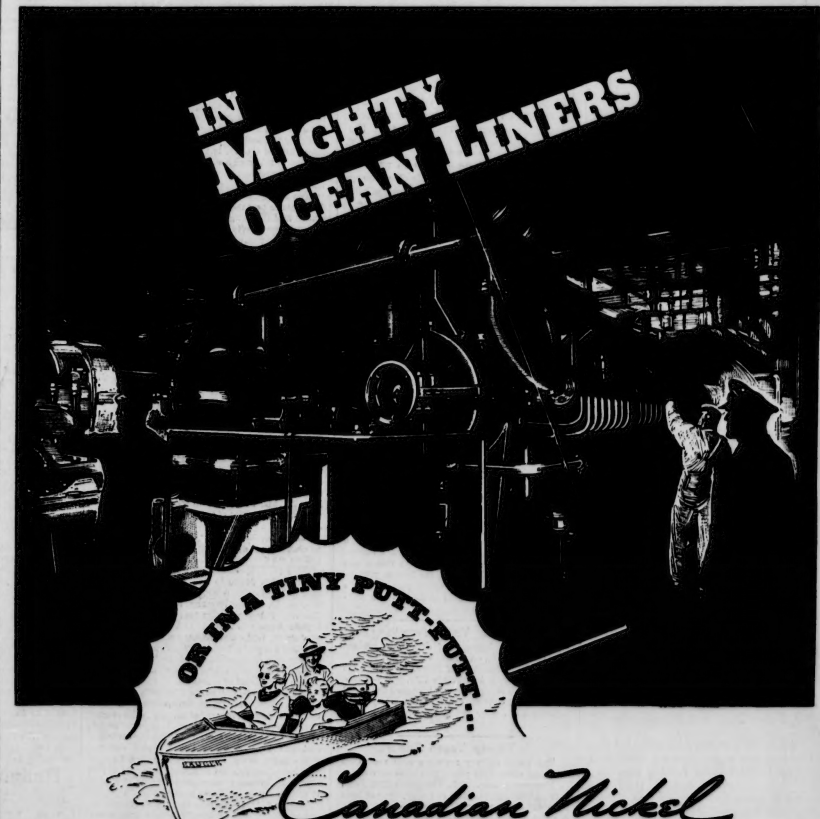

## 12-MILE ZONE AROUND U.S. INVESTIGATED

WASHINGTON, May 2.—The state department is investigating the marine defense value of establishing a 12-mile zone of territorial waters around the United States. This extension of the present three-mile limit of coastal waters was proposed to the department by Chairman Key Pittman (Dem. Nevada) of the Senate foreign relations committee.

Senator Pittman said the proposal also would have peacetime benefits, since it would give the United States greater control over the three-mile zone.

The United States set up a 12-mile zone by treaty with Great Britain during prohibition in order to make run-runner patrol more effective. It long has been accepted in international law as the extent of the United States' jurisdiction.

The manufacture of tires and other rubber products for automobiles requires the extensive use of oil.

## GIVES GREATER STRENGTH WITH LIGHTER WEIGHT

The working parts of that powerful, light-weight outboard motor of today must stand terrific stresses. Nickel alloys supply the needed strength with minimum weight.

The mighty marine engine too, operates continuously with fewer overhauls because parts subject to severe stresses are made of Nickel Steel or Nickel Iron.

Tons of Canadian Nickel go into the condenser tubes, the turbine parts, the anchor chains and the kitchens of the modern ocean liner. Tons too go into the machinery in mines, machine shops, steel mills and all types of manufacturing plants.

Industry the world over operates with fewer breakdowns because of the increased strength, toughness, and resistance to wear and corrosion which Nickel imparts to other metals. So the demand for Canadian Nickel continues to grow.

Mining, smelting and refining the Nickel from Canadian ore provide wages for thousands of Canadians. Cutting the timber, handling the freight, producing the equipment and supplies for the Nickel mines and plants provide employment for thousands of Canadians. The increased production of Canadian Nickel means more jobs, more money in circulation throughout the land.

### Not Worth The Price

Semi-official statements at Warsaw are that Herr Hitler will not be given what he has demanded; nor anything at all unless he seeks conciliation through the avenue of peaceful negotiation. Those who know anything of the Poles will not doubt their literal accuracy. A million and a quarter men under arms do not suggest that Poland intends to go the way of Czechoslovakia, and show it has the means as well as the will to halt aggression at its frontiers. In that direction the "dead line" runs with the boundary marks; nor can the Fuehrer forget that East Prussia is a hostage in the grip of the Polish police.

The new anti-aggression pact of course means that if Poland strikes in her own defence, Britain and France must strike also, while neither Rumania nor Russia could afford to withhold support at the risk of Poland being destroyed. What it all sums up to is this: Herr Hitler will sacrifice a million German lives and risk his own downfall, in a gamble for Danzig and a fifteen-mile-wide highway through the Polish corridor? On the assumption that the man is sane, it is impossible to believe he will. But even if he does, Danzig and the whole corridor would not be worth the price Germany, for either economic or military reasons.

### What Ails This World?

Professors and students from twenty-five universities, three of them Canadian, gathered in Sweden to consider how universities can best serve their nations. They decided that, as for mankind collectively at present "We are morally unfitted to survive." The remedy they propose is the evolution of a new type of human being whose will, emotions and character will be trained along with his intellect.

They are right on both counts. From evidence all too apparent and convincing, the present population of the world is admirably "fitted" to wipe itself out, or believe it will. The less peace we have, the more to fight itself backward, more ingenious but more beastly barbarism than from which its forefathers emerged. This certainly is not because institutions of learning have not multiplied or the general level of education been raised. But while human hands have been equipped with knowledge and taught to think, the human "heart" has not made corresponding gains in the qualities which would turn this added mental equipment and ability to proper use and therefore make for "survival" the race—or of what we call civilization.

Human nature has not greatly changed, while human power to work good or evil has been expanded. Cynics say it cannot be changed. But the university men have the better, in fact the only tolerable thesis; that it must be changed. Basically there is nothing much changed. Basically there is nothing much changed with this world aside from the characteristics of the people who live in it. And those characteristics can and must be changed, in the individual and the mass, if misery is to give way to happiness and the race be fitted to perpetuate itself.

### Arbor Day Is A Reminder

Albertans yesterday celebrated Arbor Day in a haze of smoke from forest fires raging in the wooded country along the foothills. If every one of them had planted a tree and if every tree planted had been imported into the province, the new seedlings would have done less than make up for the trees, big and tiny, which have been burned in the last month. But not everyone planted a tree and, anyway, and most of the trees planted were merely shifted from one piece of Alberta soil to another, adding nothing to the sum total for the province.

The plantings of Arbor Day do not increase the tree population of the province. They merely cut down the net loss from fire—in this instance they do not offset the fire loss of the spring season. And the fire loss runs on intermittently through every summer and fall. Add to this the loss caused by storms, insect pests and disease, and by no stretch of imagination can anyone suppose Arbor Day activities play any serious part in checking the wastage and preserving the tree supply.

The interest displayed in Arbor Day will have to be broadened into provincial

and federal forest policies if any notable headway is to be made in stopping this waste, ensuring timber for future use, and preventing Alberta becoming more and more a treeless area, subject to the capriciousness of wind and weather. Money in large amounts and men in large numbers will have to be enlisted, and private initiative will have to back up official efforts if these objects are to be attained.

The penalty for failure may be read in the history of prairie Saskatchewan over the last eight years. Arbor Day is a reminder of what we should be doing in a broad and systematic way, rather than a symbol even of what we are doing to make and keep Alberta properly supplied with forest areas, shelter belts, windbreaks and moisture-conserving zones.

### Editorial Notes

Japan dropped last year from fourth to fifth place among the trading nations. That is, she lost her position of expense side of the Chinese war account.

Spain is to quit the League of Nations. Franco evidently thinks that since the League did nothing to help his enemies it probably would do nothing to help him.

Canada was Britain's fourth best customer last year, moving up from fifth place, and buying 4.78 per cent of British exports. In the return exchange the Dominion continued in second place, selling 12.29 per cent of British goods. The spread between what we buy and what we sell in the old lands is still wide, but it is narrowing. And narrowing by increased purchases, not by reduced sales.

Calgary officials are cheered by the discovery that radio equipment has been sold in price, far enough down that the \$15,659 allotted to equip four police cars with two-way sets will also equip four police motor-cycles with one-way apparatus. The fraternity whom the police are employed to keep in check will register a different reaction to the news that the price has dropped.

Hon. Ian MacKenzie plans to use flying clubs as training schools for young men who want to become Air Force pilots. Perhaps the same idea could be introduced to give men a measure of training for other branches of the defence service, in case they should some time be required. The old time practice of sending the very popular in most western countries, involved no great expense on the Government, and taught many men one of the things a soldier needs to know—how to shoot straight. Maybe this interest could be revived, and extended to other branches, if the Department carried the cost of appropriate voluntary associations and offered prizes for efficiency. The success of the Navy Volunteer Reserve is an encouraging example of what might be accomplished.

## Current Comment

### Conscription

LONDON.—The tardiness and comparative mildness of the proposed conscription plan were the only sources of complaint voiced today by the British press, the *Daily Herald* (Labor) excepted. As expected, the *Herald* came out in strong condemnation of the measure.

The *Daily Express* (Independent) said: "The Government are always following a safe opinion instead of giving it the lead. They introduce conscription, but far too late in the day. ... And the measure is a sign of a government that is not between the seas of 20 and 21. Of the 310,000 men affected, only 20,000 will be called up in a year. At this rate it will take five years to build up an army of 1,000,000."

The *Daily Telegraph* (Conservative) said: "It would be difficult to imagine a milder measure of conscription or one so well suited to the anxious conditions of the hour less reasonable objection could be taken, especially by those who have been so loudly exhorting the government to 'stand up to the Dictator'."

"The significance of the proposals to which the Government now stand committed with the hearty approval of the great body of public opinion will not be mistaken either by those who welcome them or by those who object to them. They are under no obligation to be more cogent than that of the opposition—the objection that they do not go far enough."

### Idle Talk About Idle Men

During the last few days Parliament has staged one of those debates that make people wonder whether after all it is entitled to much respect. It was on the subject of unemployment, which has been discussed as a major problem at every session for the past year, without the tangible results that should be expected. It ought to be plain by now that talking is futile and that action is required. Yet the same old time-wasting arguments are repeated, and as usual, the blame is because the Minister of Labor proposed a resolution "that it is expedient to bring in a measure to provide assistance in the reduction of unemployment and agricultural distress."

It is to the credit of the House, at any rate, that Mrs. Black of the Yukon was heard without interruption, for she said the thing that needed saying when she declared that some of the members were getting lost in the fury of their own words and adding "I do not believe that the words of attack are going to help the unemployed. Surely, as grown men, members of this House can sit at a conference table and work for the best interests of this country. I have listened closely, but in vain, for one single solution to this problem. Unless we come to grips with this problem we are going to reap the whirlwind."

The members of Parliament agreed that a condition exists that must be corrected. But they denied that the Prime Minister had said that a caucus that unemployment could not be solved. Why, then, cut out the talk, abuse and counter-abuse, and work out a plan?

Dr. Manion urged the Minister to call in the best brains of business, labor and the clergy and ask them to find a solution. If Parliament does nothing but debate there is no other course than to get a committee outside of Parliament to study and decide.—*Toronto Globe and Mail*.

## The Record

Friday's meeting of the Naifed, totalitarian Reichstag was the 14th since the beginning of Adolf Hitler's regime. Its sole function was that of the German people, the thing that needed saying when she declared that some of the members were getting lost in the fury of their own words and adding "I do not believe that the words of attack are going to help the unemployed. Surely, as grown men, members of this House can sit at a conference table and work for the best interests of this country. I have listened closely, but in vain, for one single solution to this problem. Unless we come to grips with this problem we are going to reap the whirlwind."

The 13 sessions hitherto held were characterized by the following fundamental pronouncement of policy by the Reichstag: "The Reichstag, Dec. 12, 1933, was taken up with organization of the house only that of Sept. 15, 1935, was held at Nuremberg."

March 23, 1933—Hitler demands and receives an enabling act giving him authoritarian powers ("The Reichstag has passed the law of the Reichstag").

May 17, 1933—Hitler demands peace. ("It is our heartfelt desire to live at peace with other nations.")

Jan. 30, 1934—Germany has no designs on Austria. ("Any assertion that Germany plans to violate Austria is absurd.")

July 31, 1934—The Fuehrer explains the June 30 blood purge. ("I was responsible in this hour for the fate of the German nation. Thereby the supreme crisis of the German people during these 24 hours closed of myself.")

Aug. 6, 1934—Eulogy on Chancellor Hindenburg, who was buried at Tannenberg, the next day. ("Greatest ruler and savior in the course of the centuries.")

May 21, 1935—Germany reintroduces conscription but retracts it after general distress. ("We deny every fear for subjugating foreign peoples. Germany has no intention to arm to the teeth. ... It is neither out of weakness or cowardice.")

March 6, 1936—German arms and sovereignty are maintained in the Rhineland and in the points for the preservation of peace in Europe are offered. ("In this historic hour German troops are moving into their future Germanies of peace in the western province of our Reich.")

Jan. 30, 1937—Germany will not longer surprise the world with sudden moves. ("The time of sudden surprise is ended.")

Feb. 20, 1938—Hitler demands colonies. ("From year to year there will be an increasing demand for those colonies and territories which Germany did not take away from other powers and which to those powers today are practically useless except for our own people seem indispensable.")

March 18, 1938—Hitler proclaims himself interested in the fate of Germany across the borders. ("Let the world comprehend that a great people with a feeling for honor cannot in the long run stand passively by as great masses amounting to millions and belonging to their own blood are oppressed continuously.")

Jan. 30, 1939—Germany must export or die. ("The German nation must live—that means export—or die.")

"The huge salaries they pay stars are really determined because they are applied to the budget of the picture."—Ruth Chatterton.

## The Passing Show

This was to have been the day on which the Italian armies in Spain—under the non-intervention pact should never have been there at all—were to begin to leave by Spain. The date has now been deferred till May 18. It's dollars to doughnuts they won't leave then, unless Mussolini becomes fearful of what might happen to them in the event of his communications being cut in the Mediterranean. Have you noted that when a Fascist dictator pledges his word, it is always for the purpose of breaking it?

Earl Baldwin delivered three lectures on British domestic last week at the University of Toronto. Splendid example of a solid middle-class Englishman himself—despite the title—he was well-equipped to explain the British character. He found the explanation of the odd combination of monarchy and democracy comprised in the unwritten British Constitution by saying that the Englishman has an instinctive aversion from the alien forces of political upheaval that may appeal to more logical or more intellectual people. In practice a kindly people who never rush into a revolution, they are under no obligation to be more cogent than that of the opposition—the objection that they do not go far enough."

All these pleasant ascriptions will be modestly accepted by most Britons, though the logic of the speaker is not so well supported when he asserts that neither Fascism nor Communism can gain foothold against the tradition of British democracy. Many people in Canada will be surprised to find that in Canada, surveying the UNFORTUNATE chronic unemployment in both countries, would be honestly be compelled to answer "No."

The question whether our present economy works. And his illustration of the union of the French and English races in Canada is a pathetic and pathetic and understanding, "It is not convincing in Canada as it may appear from the other side of the Atlantic."

While tolerance is the common theme of speakers on tour from Quebec, the padlock law is one of enforcement and the persecution and imprisonment of religiousists on charges of seditious conspiracy and corrupting morals, are foreign to the spirit of loyalty, sympathy and understanding shown in the other provinces. Under whatever name it may be called, its spirit of suppression and persecution is that of Fascism.

Training of child life is the most important task of the State. All hope for the future rests on the education of the child. The child must be intelligent, more tolerant and more healthy-minded than the present greed-crazed, superstitious-bound generation that has made such a mess of the world. It is the duty of the State to grow up under ordinary routine. Both live under the same roof and both attend the same class in the same school. BRITISH HAVE  
NEW OPINIONS

F. E. Figueiras Says Real Issues Have Become Clarified

British public opinion slowly is becoming clarified on the real issues in the field of foreign policy that now await the nation's decision, said F. E. Figueiras, of London, England, director-elect of the International Federation of League of Nations Societies.

Mr. Figueiras, who came to the city Tuesday morning, said that the problems that shadowed Europe, though at first dim to many Englishmen in their implications, have now taken on a stark reality.

Result of the new "peace front" organized by Britain and France, he said, was that if war came, the democracies could fight with greater assurance of victory.

Mr. Figueiras will address a public meeting in Knox United church Tuesday at 8 p.m. The Commonwealth, the Mediterranean and World Peace. Mr. F. E. C. Caselman, president of the Edmonton branch of the League of Nations Society in Canada, which is sponsoring the meeting, will be chairman.

Tuesday afternoon Mr. Figueiras addressed students at the Normal School. He will speak at a meeting of the Edmonton branch of the Canadian International Affairs Wednesday night at a dinner meeting in Abbots Hall.

500 COMPETE  
FIFTH ANNUAL  
MUSIC EVENT

Sir Ernest MacMillan Is  
Adjunct at District  
Festival

Close to 500 competitors were in the lists when the fifth annual Edmonton District Music Festival, promoted by the Edmonton branch of the Alberta Musical Festival Association, (Inc.), commenced at McDougall Auditorium Tuesday morning.

The festival will continue until Friday, when it will be concluded with a grand concert of winning competitors.

Other adjudicators. In addition to Sir Ernest MacMillan, adjudicators are Miss Marjorie Gulien of London, England, who will adjudicate on the elocution and choral recitation classes, and Miss Marjorie Boyle of Saskatoon, who will adjudicate in the dancing events.

Primary Piano. Winner of the first competition in the fifth Edmonton District music festival, which opened at McDougall auditorium Tuesday morning, was Gladys Rymter, petite child, who captured the first place in the primary piano competition, open to solists under 11 years.

Miss Rymter scored a total of 174 out of 200 marks, winning 80 for her performance of Haydn's Allegro in G and 94 for her performance of F. J. M. McCarty's Kerry Jig.

Second place went to Barbara Snodgrass with 173, scoring 85 and 88 respectively for the two test pieces.

Others in the competition and their marks were: Theresa Turgeon 80; Eleanor Jane Mitchell 107; Phyllis Yang, 144; William Guey, 160; Marion Sutherland, 161 and Betty Johnston 159.

Junior Piano. In the second competition, junior piano, for players under 14, first place was won by Donna Fraser.

Highlights In Edmonton's Big May Day Parade

Pictured above are the highlights of Edmonton's May Day parade as caught by The Bulletin photographer. In the top left-hand corner is "The Umbrella-man" as played by Harry Swanson. Just guess who he is dressed up to represent. In the lower left-hand corner are three young mothers wheeling their infants—initiating them in the May Day tradition. And on the right the leaders of the parade are shown as they came along 101 street. The leading banner was carried by the May Day committee, consisting of Harry Miller, Ole Arntsen and G. P. Groshko. In the picture Miller is on the right, Groshko on the left, with Arntsen walking in the centre. It was estimated that 2,000 persons took part in the parade.

REFUNDING IS

GRIT PROGRAM

Party May Be Pledged To  
Low Interest Move, Re-  
port Says

Liberal Party's platform for the next provincial election may make as its decision reached by the refunding of the public debt of Alberta at low interest rate, it appeared after the meeting here Monday of the executive of the Alberta Liberal Association.

Discussion of the debt resolutions that are to be incorporated in the party platform formed one of the main items on the agenda of the meeting.

While no announcement was made as to the decision reached by the executive on the debt question, it was stated by executive members that the debt plank will be debated at the general council of the party in Red Deer on June 11 and the executive will submit its own recommendations.

Unfinished business of the executive will be transacted at Red Deer on June 16, the day prior to the general council assembly.

Among questions discussed at Monday's meeting, said Robert Burrows, of Lechburg, association president, were the larger school unit, unemployment relief, agriculture, public and private debt, cost of farm implements, refunding of the provincial debt, and state medicine.

The provincial debt, which the Liberal party may urge to be refunded at lower interest rates, total approximately \$157,000,000.

2,000 March Here  
May Day Parade:  
Fascism Attacked

Two thousand men, women and children, of all ages from babies in perambulators to a 72-year-old woman veteran of five such parades, marched through Edmonton streets Monday evening with banners held high in the annual May Day demonstration.

The parade was five blocks long. Moving off from the Market Square at 7:15 p.m., the procession went to 97 street, north to 104 street, west to 101 street, south to Jasper avenue, west to 107 street, north to 104 street, west to 101 street, north to the Market Square.

Heading the parade, behind the police motorcycle escort, was a banner bearing the key-note of this year's May Day demonstration: "Stop Fascist aggression—demand embargo."

Further back in the parade was the slogan "Give Hitler the Works." Organizers. Units taking part in the parade, in the order of their appearance, were: The Young Pioneers, children's organizations of the Communist Party, Canadian Ukrainian Youth Federation, United Mine Workers of America, Unemployed Married Men's Association, C.P.C. Canadian League for Peace and Democracy, Communist party, followed by a band.

Duties of members of the Canadian Corps Association during the Royal Visit on June 2 next will be discussed at a meeting to be held Tuesday at 8 p.m. at the Masonic Temple. Following the business meeting motion pictures taken by Eddie McDougall will be shown and a band will be in attendance.

Traveler in Edmonton for a city firm for the past seven years, Robert "Bob" Paul will leave this weekend for Calgary, where he will represent the William Neilson Ltd., Toronto chocolate manufacturer, on his sales tour.

Members of the Optimist Club held a dinner meeting at the Macdonald hotel Monday when new members presented an entertainment program. Synthe Fleming was in charge of arrangements, and Robert Mitchell and Arthur Bergman contributed to the program. Club President D. W. F. Richardson presided.

YOUTH HURT  
IN FALL OFF  
CITY BRIDGE

Elmer Devore, 16, Injured  
On Fifth Street Span—  
Power Shock

Rushed to the Minto hospital unconscious, following a fall from the Fifth street bridge, Monday evening, Elmer Devore, 16, of 10828 9th ave., was reported to be in serious condition early Tuesday morning.

He was reported as "slightly improved" at 2 p.m. Tuesday. He was requiring continuous care at intervals. First report of the accident, in which the youth fell from the bridge, was given by George Ludwig of 10828 9th ave. at 9:15 p.m. Monday. Police responded to the call immediately.

Edna Burns of 2000 106 street, who was near the bridge at the time of the accident, told the hospital, informing him of the accident. Ludwig reported the accident to the police and then to the hospital.

He found Devore lying on the deck of the bridge where he had slipped from the foot of the stairs at the south end of the bridge. He was unconscious and bleeding.

The injured youth was placed in a waiting room at the hospital. His two companions, C. Williams and a youth named Paton accompanied Devore to the hospital.

Hospital attendance reported Tuesday morning that the youth was still unconscious. It is believed that his left shoulder is broken.

Devore, 16, of 10828 9th ave., and Charles Williams, were young Devore's companions at the time of the accident.

They reported that the power lines, from which the youth is believed to have received a shock, carry 2,300 volts. They are strung 14 or 15 feet above the bridge deck and are weather-proofed.

OFFICIALS ARE  
WATCHFUL FOR  
HORSE DISEASE

Western provinces are continuing free from sleeping sickness among horses, according to provincial agriculture department officials. While it is early yet for the industry to appear, it is felt that the intensive campaign carried on jointly by the three prairie provinces to vaccinate horses against the disease, has had a beneficial effect.

More than 200,000 doses of the preventative vaccine have been administered to Alberta horses. It is pointed out that last season the first case of sleeping sickness among horses did not make its appearance until June and that an outbreak may develop yet.

They reported that the power lines, from which the youth is believed to have received a shock, carry 2,300 volts. They are strung 14 or 15 feet above the bridge deck and are weather-proofed.

## Figures Believes Time Coming When Germany Will Attack Italians

### COUNCIL ASKS SAFETY LANES ROYALTY VISIT

#### Labor Group Wants Pedestrian Walks Marked On Portage

Members of the Edmonton Trades and Labor Council Monday evening unanimously decided to ask the City Council to make immediate provision for the marking of white lines along Portage Avenue to replace the sidewalk now in use for bleachers in connection with the Royal Visit June 2.

It was pointed out that many children would be forced to walk on the roadway at the time the bleachers have been erected, and in consequence would be exposed to danger from automobile traffic.

The council also decided to recommend to City Council that liability insurance should be taken out against accidents to persons occupying bleachers during the Royal Visit in Edmonton.

#### GRIESBACH RAPS GOVERNMENT ON DEFENCE POLICY

OTTAWA, May 2.—A condemnation of the government's defence policy and a recommendation for creation of an armament industry in Canada added new fuel today to the national security controversy on Parliament Hill.

In the Senate last night Senator W. A. Griesbach (Con., Alberta), stepped out at the Liberal administration, charging it lacked the courage to come to grips with the question of defence, and stated the Dominion has lost time for the expenditures on preparedness made during the last four years.

He introduced the issue into the upper house when he made a motion drawing the Senate's attention to the defence conditions of Canada. The debate was featured by a fiery exchange between General Griesbach and government leader Raul Dandurand when the Edmonton member attempted to read a letter from a friend who contended Canadian armament needs could be manufactured in this country.

Senator Dandurand insisted the name of the writer be disclosed but the Alberta Senator refused to divulge the name. Pressed further by this information, Senator Griesbach declared: "You must not talk like that. If anyone accuses me of too closely following to talk about things I know."

#### BUDGET PACKS OF CIGARETTES ARE PLANNED

LONDON, May 2.—British tobacco and automobile manufacturers are planning "budget packages" of cigarettes and even smaller cars to cope with increased taxes for rearmament.

At first it appeared the new cigarette tax would throw thousands of vending machines out of commission. Then manufacturers decided to charge the same price for a package of two less cigarettes.

The 25-shilling (£5.80) per horsepower tax on automobiles brought plans for at least five manufacturers for tiny cars. Some are said to develop about six horsepower with a top speed of 50 miles an hour to get around 50 miles to the gallon. Some of the new cars will be in production within a week.

#### Woman Trapeze Performer Falls 40 Feet: Injured

HOUSTON, May 2.—As the circus dunes were about to roll for the climax of her act on the high trapeze, Fritz Barton missed a bar and fell 40 feet last night from the aerial ring and fractured her left leg at the opening of the Ringling Brothers-Baron and Bailey show in Houston Garden.

Billed as Europe's queen of the flying trapeze, her current tour was her last appearance in America.

#### King Zog, Queen Refugees Leave For Turk Home

ATHENS, May 2.—King Zog of Albania and Queen Geraldine, refugees since the Italian invasion of their kingdom, departed by train last night for Turkey accompanied by the King's sisters and former Premier Constantine Kette.

Queen Geraldine was said to have recovered fully from fever induced by flight from Italy during the Easter week-end and with her new-born son, Prince Alexander.

#### Warning Issued After Rifle Is Confiscated Here

In response to a complaint by a citizen who was narrowly missed by a bullet from a 22 rifle accidentally discharged by one of a group of boys in a spare lot, police have confiscated the rifle and issued a general warning with regard to firearms.

Three nights, Mr. Figures said, were for a rest on the board of control of the Suez canal control of Tunisia, which would permit her to close the waist of the Mediterranean, and control of Spain making Gibraltar useless to Great Britain.

Italy's best choice for escaping from her present predicament is to induce Germany to start a war and then buy her neutrality from Great Britain and France," said the speaker in his Canadian Club address. "Germany, on the other hand, is anxious the Italy should start the war, since it would be difficult for Premier Mussolini to buy his neutrality from his own war."

#### MOZART MUSIC HITLER'S BANE VISITOR SAYS

Sir Ernest MacMillan, principal of the Toronto Conservatory of Music and adjudicator in the Edmonton and District Musical Festival, does not think that Hitler likes the music of Mozart, master of melody.

He told reporters that while Hitler is reported to be an ardent admirer of Wagner, he sometimes wondered if the German dictator was attracted by the musical genius of the composer or by his "occasional German chauvinism."

"I am fairly certain that he would not like Mozart, who is, of course, wholly Aryan," Sir Ernest declared.

Musical critics have often suggested that Wagner cannot qualify under the stringent Hitler decrees as an Aryan.

#### XAVIER CADETS TAKE DRILLING IN CITY CAMP

Moving their cots from the dormitories of the Jesuit College into tents erected on the college grounds at 114 Avenue and St. Albert Trail, over 100 members of the Xavier Cadets Corp. spent Saturday night under canvas.

The cadets will stay in the military tents until June 1. The tents, army bell type, and two marquees, were sent to the city from Calgary and were erected by the cadets Saturday.

First guest at the camp was Major C. B. Bragette, company commander in the Edmonton Fusiliers, who has assisted in training the cadets.

Sunday afternoon, the cadets lined up for inspection by C. E. Barry, honorary lieutenant colonel of the cadet corps. Rev. Father Bellavance, rector of the college, took the salute with Mr. Barry.

The cadets were ready for the inspection by Sergeant Instructor Hawkes, of the P.P.C.L.

#### M'Kinnon Thanked For Support Given Labor's Proposal

Edmonton's Trades and Labor Council delegates Monday evening unanimously passed a resolution expressing thanks to Hon. James A. MacKinnon, M.P., for Edmonton.

West and acting minister of labor, for his efforts in having amendments to the criminal code put through parliament which will permit voters the right to sue for damages.

Recently the Trades Council petitioned MacKinnon seeking this legislation, and at that time Mr. MacKinnon stated in a communication to the trades council that he would make representations to the House on this request.

#### Massey Soothed By Racing News During Tension

LONDON, May 2.—Hon. Vincent Massey, Canadian high commissioner, last night told the newspaper press fund dinner that racing news on street posters "soothed and comforted and tranquilized" him during times of international tension.

Responding to the toast to the ministers, the high commissioner, a former Canadian minister to Washington, said he had had relations with the press of Canada, Great Britain and the United States and that he "always had been happy to take them into my confidence and I never once have been let down."

## Western Gentlemen Will Make Special Appearance

### Mart Kenney To Play in City at Tivoli Ballroom

Mart Kenney and his famous Western Gentlemen who are to stop off in Edmonton on their way to Toronto where they will fill their third summer engagement at the smart Roof Garden of the Royal York Hotel, will be the guest band at the Tivoli Ballroom on Wednesday, May 3, when friends he has made through other personal appearances here, through his radio broadcasts and his phonograph records will have the opportunity to renew their friendship.

Kenney, who has been known here as "the inspector" and now manager of the Tivoli Ballroom, asked Mart to form an orchestra for the Alexandra Ballroom in Vancouver and that was the beginning of the "Western Gentlemen" five of the original six are still with Mart. Mart started out in the world early to carve himself a career, for at the age of 15 years he was earning \$2 a week as a drugstore messenger boy; and out of this amount he managed to save enough to contribute towards a violin and for three years he practiced tirelessly.

WANTS SAXOPHONE. Then Mart wanted a saxophone. By the time he was 15 years old

he had saved enough from his paper route to purchase the instrument, and to use his own expression: "Boy, I don't think the family liked it much!"

Kenney had a small Sunday school band, netted Mart and his pals a few dollars; and during the summer he did everything from rolling barrels of tar to thrashing wheat until he was 18 when he obtained a position at the Vancouver hotel.

Three years later he formed the Western Gentlemen, and Mart had definite ideas of just what a band should be. It doesn't matter so much to him whether a man is a star musician or not, so long as

he is loyal and willing to work hard. The name "gentlemen" meant more than just a title to the ambitious young rock leader. Slowly but surely the band took shape, and during 1932, 1933 and 1934 it labored hard. Art Hallman singing pianist was added, then a bass player and another saxophonist.

Kenney strove until he acquired his inimitable smooth, easy, rhythmic style which is known from coast to coast today.

ELEVEN IN BAND. Jack Hemmings, Bert Lister, Ed Enel and Eric MacCallum are four of the original Gentlemen, Mart having added to them from time to time until his band now numbers eleven including himself.

The players are: Art Hallman, piano; Jack Hemmings, trumpet; Bert Lister, saxophone; Gene Griffith, trumpet; Ed Enel, drums; He-

len MacCallum, bass; Jack Fowler (trumpet); Ted Elstrom, trombone; Tony Braden, guitar; Don Skiles, saxophone.

Ted Elstrom is a native of Ed-

monton. He is the only one of the band who is not a native of the West.

Edmontonites who know him as a friend and a neighbor, will be glad to see him in his new role as a performer.

He will be playing at the Tivoli Ballroom on Wednesday, May 3, at 10 p.m.

Admission: 50c. Free for children under 12.

CANADIAN WHO GAVE US NORTHWEST TERRITORIES

THE FAMOUS CONVENTION OF CHAMPELON

IN 1142, WAS CALLED "THE MOST IMPORTANT EVENT IN THE HISTORY OF THE NORTHWEST"

UPON THIS CONVENTION WAS TO DEPEND THE SUBSEQUENT ALLIANCE OF A GREAT AND RICH TERRITORY: 51 DELEGATES WERE FOR AND 51 AGAINST THE UNITED STATES. IN THE LAST MINUTE, FRANCIS X. MATTHEW (1818-1914), A NATIVE OF MONTREAL, CANADA, CHANGED HIS MIND AND CAST THE DECISIVE VOTE IN FAVOR OF THE UNITED STATES. AS A RESULT, THE UNITED STATES GAINED POSSESSION OF THE OREGON TERRITORY, OUT OF WHICH THE STATES OF OREGON, WASHINGTON, IDAHO, WEST MONTANA AND NORTHWEST WYOMING WERE SUBSEQUENTLY CARRIED.

STATUES OUTLINED ALL HIS FOLLOWER VOTES BY MANY YEARS.

THE FIGURE-SKATERS IN THEIR LOVELY BALLET COSTUMES AND THE SWIMMERS IN THEIR BATHING-SUITS MANAGE TO LOOK ATTRACTIVE AT ALL TIMES, BUT THERE IS NO GIRL WHO CAN MANAGE TO LOOK ANYTHING BUT AWFUL DURING THE PRESENCE OF SOME STRENUOUS GAME PLAYED ON A HOT DAY, PARTICULARLY WHEN SHE IS TIRED, WINDED, PERCIPITANT, AND LOILING.

THE TENNIS LADIES BEAT OVER DOUBLE TRYING TO CATCH THEIR BREATHS AND HOW OUT OF O-SHAPED MOUTH AS THEY NEEDED FISH.

THEY GET BLUES STICK DAMPLY AND CLING TO THEM, THEIR FACES GET BEET-RED AND GLOW LIKE INCANDESCENT LAMPS. THEIR HAIR INVARIABLY ESCAPES FROM THE BUNDLES AND LOOKS FROED. IF THERE IS ANYTHING MORE DREADFUL

THAN THIS, IT IS THE SIGHT OF A GIRL ROLLING ON THE GROUND IN THE MIDDLE OF A SPRINGFIELD COMPETITION. THE DIVE WAS BEING HELD IN WATER THAT WAS TOO SHALLOW FOR THE PURPOSE. BEFORE THE START, ONE OF THE MEN WENT OFF IN A PRACTICE DIVE. THE WATER BEGAN TO TURN RED BEFORE HE CAME UP, AND WHEN HE DID, ONE HAND WAS IN HIS EYES AND HE HAD GAINED IT ON A PILE OF BROKEN BOTTLES. THE GIRL DIVER WAS STANDING ON THE BOARD WAITING TO DO HER PRACTICE DIVE. THE MEN SWAM IN AND WERE TAKEN AWAY FOR FIRST AID. THE GIRL DIVER DIED AND SO DID THE REST OF THE MEN.

THEY HAVE BEEN A GIRL SKATER IN THE MILLER RACE TRIP AND FALL ON THE FIRST JUMP, HER LEG ON A SKATE, GET UP, SET OUT AFTER THE PACE, AND WIN. THERE WAS THE HIGH-TOWER DIVER WHO HAD HURT HERSELF. A PHYSICIAN TOLD HER THAT IF SHE DIED ANOTHER DIVE BEFORE ALLOWING THE INJURY TO BE HEAL, THERE WAS EVERY CHANCE THAT SHE WOULD BREAK HER NECK. SHE DUNKED HIM AND THEN WENT ON UP THE 30-FOOT TOWER AND TOOK OFF BECAUSE IT WAS IN THE MIDDLE OF A COMPETITION AND SHE COULDN'T THINK OF STOPPING.

WHEN YOU FIND A REAL FIGHTER IN A GIRL, IT IS SOMETHING TO BE IF ONLY AS A GIRL WHO CAN TAKE THE STRAITS OF PURE BUILT-DAY TENACITY. MOLLIE MALLORY WENT TO BE LIKE

Strong Slate of Officials Elected

By JACK DEARIN

ORGANIZED junior baseball will again receive its just prominence here. Some two or three years have passed since the young men of the ball diamond presented themselves in an organized league, but come those sunny days the juniors will be hustling as ever on the sandlots. A four-team league was organized last night with clubs already entered and a strong slate of officials elected to guide the young men.

Baseball enthusiasts gathered at Manager Leroy Goldsworthy's Sports Booster office last night. A fairly small but truly enthusiastic sport-minded men gave the youngsters a boost as they elected a strong slate of officers and laid initial plans for a lengthy baseball campaign.

A four-team league is anticipated. Three teams have already made their entry and a fourth team will not be hard to get. The three teams entered are Arrow Blues, Maple Leaf Athletic Club and a team from the South Side.

Heading the officers elected is President Barney Stanley, who will receive ample help from Enoch Lowmish, vice-president, while W. G. "Burr" Harris is a likely successor as treasurer.

All of these officials have had previous experience in organized leagues. Mr. Stanley and Mr. Lowmish have been active in the young men's leagues while the work of Bill Harris is widely known. Mr. Harris has always been a hard worker for the young men of sport, especially in hockey. Mr. Harris held a similar position last season with the senior baseball league. Such a hand of officials gives promise that junior baseball will again be a popular sport here.

Besides junior ball, many who attended last night's meeting showed their interest in juvenile and midget ball. It is likely that the junior division will also give the juveniles and midget a boost. Officials will give these minor divisions every assistance and young boys are asked to get in touch with these officials if interested in baseball.

Sponsor Vice Hornor and Manager Cecil Delatich and Coach Soldier Thomas, who guide the destinies of the Arrow Blues, have reported large and enthusiastic turnouts at recent practices. The reported Soldier Thomas reported a total of 200 young ball players out on Sunday. Some juniors join other juveniles and midget. The Soldier however, is confident he has a great team and the public will be anxious to see.
